

## CITATION OF SOME WORKS OF A.B. KHARAZISHVILI

**Remark.** The asterisk (\*) marks monographs, textbooks, handbooks, surveys, theses, or lecture courses.

### 1975

G. Nijaradze, *Density points and invariant sigma-finite measures*, Bull. Acad. Sci. GSSR, vol. 80, no.1, 1975 (in Russian).

[13].

G. Nijaradze, *On some properties of measures which are invariant with respect to discrete groups of motions*, Bull. Acad. Sci. GSSR, vol. 80, no. 2, 1975 (in Russian).

[6], [11].

G. Nijaradze, *On the stability property of sets with respect to small shifts*, Bull. Acad. Sci. GSSR, vol. 80, no.3, 1975 (in Russian).

[13], [14].

### 1976

H. Guggenheimer, E.Lutwak, *Characterization of n-dimensional parallelotope*, Amer. Math. Monthly, vol. 83, no. 6, 1976.

[4].

G. Nijaradze, *On some properties of sigma-finite measures given on Euclidean spaces*, Bull. Acad. Sci. GSSR, v. 83, n. 3, 1976 (in Russian).

[17].

G. Nijaradze, *On nonmeasurable subsets of Euclidean spaces*, Proceedings of the Conference of Young Scientists in Mathematics and Mechanics, Tbilisi State University Press, Tbilisi, 1976 (in Russian).

[17].

### 1977

P. Gruber, *Über den Durchschnitt einer abnehmenden Folge von Parallelepipeden*, Elemente der Mathematik, v. 32, n. 1, 1977.

[4].

### 1978

(\*) V. Boltyanskii, P.Soltan, *Combinatorial Geometry of Various Classes of Convex Sets*, Acad. Nauk Mold. SSR, "Stinitza", Kishinev, 1978, 300 p. (in Russian).

[3], [4].

G. Nijaradze, *On regular systems which are not Vitali ones*, Bull. Acad. Sci. GSSR, v. 90, n. 2, 1978 (in Russian).

[13], [19].

### 1979

A. Kipiani, *On countable equidecomposability of sets in abstract spaces*, Bull. Acad. Sci. GSSR, v. 95, n. 2, 1979 (in Russian).

[42], [46].

### 1980

R. Tsakadze, *On totally homogeneous spaces*, Bull. Acad. Sci. GSSR, v. 98, n. 1, 1980 (in Russian).

[46], [49].

A. Gabrichidze, *On symmetric sets*, Bull. Acad. Sci. GSSR, v. 100, n. 3, 1980 (in Russian).

[25], [47].

### 1981

(\*) V. Boltyanskii, *Combinatorial Geometry*, in the Series: "Algebra, Topology, Geometry", v. 19, 1981, pp. 209–274 (in Russian).

[3], [34], [44].

(\*) J. Böhm, E. Hertel, *Polyedergeometrie in  $n$ -dimensionalen Räumen konstanter Krümmung*, Birkhauser, Basel-Boston-Stuttgart, 1981, 380 p.

[27], [29].

(\*) Ch. Davis, B. Grünbaum, F.A. Sherk, *The Geometric Vein*, Springer-Verlag, Berlin, 1981, 598 p.

[47].

### 1982

A. Pelc, *Semiregular invariant measures on abelian groups*, Proc. Amer. Math. Soc., v. 86, 1982.

[15].

E. Hertel, *Some generalizations of equidecomposability theory of polyhedra*, Forschungsergebnisse, Universität Jena, N/82/49, 1982 (in Russian).

[34].

### 1983

(\*) P. Gruber, J. Wills, *Convexity and its Applications*, Birkhauser, Basel, 1983.

[4], [34], [39].

### 1984

J. Burzyk, C. Klis, Z. Lipecki, *On metrizable abelian groups*, Colloq. Math., v. XLIX, 1984.

[53].

Z. Zerakidze, *On weakly separated and separated families of probability measures*, Bull. Acad. Sci. GSSR, v. 113, n. 2, 1984 (in Russian).

[49].

A. Gabrichidze, *One class of symmetric sets*, Bull. Acad. Sci. GSSR, v. 114, n. 1, 1984 (in Russian).

[25], [47].

### 1985

(\*) I. Rival, *Graphs and Order*, D. Reidel Publ. Co., University of California, 1985, 796 p.

[8].

K. Ciesielski, A. Pelc, *Extensions of invariant measures on Euclidean spaces*, *Fund. Math.*, v. 125, 1985.

[15], [46].

H. Kaiser, *Mehrfach-orthogonale Simplexe in Räumen konstanter Krümmung*, *Beitrage zur Algebra und Geometrie*, v. 19, 1985.

[29].

G. Pantsulaia, *On generalized integrals*, *Bull. Acad. Sci. GSSR*, v. 117, n. 1, 1985 (in Russian).

[66].

R. Tsakadze, *On the notion of absolute nonmeasurability*, *Bull. Acad. Sci. GSSR*, v. 118, n.1, 1985 (in Russian).

[64], [68].

R. Tsakadze, *On absolutely negligible sets in Euclidean spaces*, *Bull. Acad. Sci. GSSR*, v. 118, n. 3, 1985 (in Russian).

[71], [77].

G. Pantsulaia, *On the existence of a quasi-invariant measure on a non-locally compact non-commutative topological group*, *Bull. Acad. Sci. GSSR*, v. 120, n. 1, 1985 (in Russian).

[77], [79].

G. Pantsulaia, *On some properties of families of probability measures*, *Bull. Acad. Sci. GSSR*, v. 120, n. 2, 1985 (in Russian).

[71].

G. Nijaradze, *On regular systems for some invariant extensions of Lebesgue measure*, "Topological Aspects of the Theory of Functions", Tbil. State Univ., Tbilisi, 1985 (in Russian).

[71].

Z. Zerakidze, *On consistent estimates in nonseparable metric spaces*, "Topological Aspects of the Theory of Functions", Tbil. State Univ., Tbilisi, 1985 (in Russian).

[73].

R. Tsakadze, *On absolutely nonmeasurable sets*, "Topological Aspects of the Theory of Functions", Tbil. State Univ., Tbilisi, 1985 (in Russian).

[77].

A. Kirtadze, *To the question on the existence of a family of mutually singular measures in the space  $\mathbf{R}^N$ , whose cardinality is maximal*, "Topological Aspects of the Theory of Functions", Tbil. State Univ., Tbilisi, 1985 (in Russian).

[71], [79].

G. Pantsulaia, *On generalized integrals for vector-functions*, "Topological Aspects of the Theory of Functions", Tbil. State Univ., Tbilisi, 1985 (in Russian).

[66].

V. Tskhadaia, *Quasi-invariant and invariant measures in topological spaces*, "Topological Aspects of the Theory of Functions", Tbil. State University, Tbilisi, 1985 (in Russian).

[79].

A. Gabrichidze, *On some questions of combinatorial geometry in finite-dimensional normed vector spaces*, The First Soviet Conference in Combinatorial Geometry, Batumi, 1985 (in Russian).

[47].

H. Kaiser, *To the question on decomposability of simplices into  $k$ -orthogonal simplices*, The First Soviet Conference in Combinatorial Geometry, Batumi, 1985 (in Russian).

[29].

G. Nijaradze, *On some properties of discrete groups of motions of Euclidean spaces*, The First Soviet Conference in Combinatorial Geometry, Batumi, 1985 (in Russian).

[71].

T. Sajeniuk, *On partitions of  $\mathbf{R}^3$  into congruent convex curves*, The First Soviet Conference in Combinatorial Geometry, Batumi, 1985 (in Russian).

[88].

[29].

## 1987

V.V. Buldygin, *Convergence of Fourier series of stationary Gaussian processes*, Ukrain. Math. Journal, v. 39, n. 3, 1987 (in Russian).

[89].

G.A. Galperin, *Solving Proizvolov's problem of covering a multi-dimensional polyhedron with pyramids - generalizations of the problem*,

Dokl. Akad. Nauk SSSR, v. 293, n. 2, 1987 (in Russian).

[86].

P. Zakrzewski, *The existence of universal invariant semiregular measures on groups*, Proc. Amer. Math. Soc., vol. 99, 1987.

[15].

H. Kaizer, *On a classification of  $n$ -dimensional simplices*, Bull. Acad. Sci. GSSR, v. 125, n. 1, 1987 (in Russian).

[29], [47].

A. Kirtadze, G. Pantsulaia, *On essential uniqueness of invariant measures*, Bull. Acad. Sci. GSSR, v. 127, n. 1, 1987 (in Russian).

[71], [78], [79].

T. Sajeniuk, *On combinatorial properties of nets in Euclidean spaces*, Soviet Geometry Conference in Honour of A. D. Alexandrov, Novosibirsk, 1987 (in Russian).

[82].

T. Sajeniuk, *On some inductive constructions in combinatorial geometry*, Proc. I. Vekua Inst. of Appl. Math., v. 20, 1987 (in Russian).

[82], [87], [88].

A. Kipiani, *Product-isomorphisms of binary relations and some of their applications*, Proc. I. Vekua Inst. of Appl. Math., v. 20, 1987 (in Russian).

[28], [61].

G. Nijaradze, *To the question on the existence of absolutely nonmeasurable sets and the Vitali construction*, Proc. I. Vekua Inst. of Appl. Math., v. 20, 1987 (in Russian).

[36], [64].

D. Bersenadze, *The Suslin property for measures and the Carathéodory extension theorem*, Proc. I. Vekua Inst. of Appl. Math., v. 20, 1987 (in Russian).

[71].

G. Sokhadze, *To the Dilworth theorem on decomposition of ordered sets*, Proc. I. Vekua Inst. of Appl. Math., v. 20, 1987 (in Russian).

[61].

G. Nijaradze, *On some geometric topics in the theory of measures and volumes*, Proc. A. Razmadze Math. Inst., v. 85, 1987 (in Russian).

[71].

V. Pokrovskii, *Decompositions of  $n$ -dimensional polyhedra and the Zylev-Debrunner theorem*, Proc. A. Razmadze Math. Inst., v. 85, 1987 (in Russian).

[34].

T. Sajeniuk, *On combinatorial properties of subsets of the Euclidean plane*, Proc. A. Razmadze Math. Inst., v. 85, 1987 (in Russian).

[82], [87].

## 1988

P. Neumann, *Homogeneity of infinite permutation groups*, Bull. London Math. Soc., v. 20, n. 4, 1988.

[10].

P. Zakrzewski, *Extensions of invariant ideals*, Algebra Univers., v. 25, n. 2, 1988.

[15].

P. Zakrzewski, *On universal semiregular invariant measures*, The Journal of Symbolic Logic, v. 53, n. 4, 1988.

[15].

(\*) A. Kusraev, S. Maliugin, *Some Questions of the Theory of Vector Measures*, Inst. Math. SO AN SSSR, Novosibirsk, 1988, 200 p., (in Russian).

[77].

V. Soltan, Nguen Man Hung, *To the problem of Grünbaum on affine diameters*, Bull. Acad. Sci. GSSR, v. 132, n. 1, 1988 (in Russian).

[38].

A. Kipiani, *Some combinatorial problems connected with product isomorphisms of binary relations*, Acta Univ. Carolin., Ser. Math.-Phys., v. 29, n. 2, 1988.

[28], [61].

## 1989

G. Pantsulaia, *On orthogonal families of probability measures*, Trans. Georgian Polytechn. Inst., ser. Mathematical Analysis, v. 350, n. 8, 1989 (in Russian).

[77].

G. Pantsulaia, *Independent families of sets and their applications to measure theory*, Bull. Acad. Sci. GSSR, v. 134, n. 1, 1989 (in Russian).

[71].

G. Pantsulaia, *On invariant and quasi-invariant measures on some function spaces*, Bull. Acad. Sci. GSSR, v. 134, n. 3, 1989 (in Russian).

[79], [80].

K. Omiadze, *On the notion of absolutely negligible sets*, Bull. Acad. Sci. GSSR, v. 135, n. 1, 1989 (in Russian).

[71].

A. Kipiani, *On a uniform subset of  $\omega_\alpha \times \omega_\alpha$* , Bull. Acad. Sci. GSSR, v. 135, n. 2, 1989 (in Russian).

[28], [61].

A. Kirtadze, *On nonseparable extensions of invariant measures*, Bull. Acad. Sci. GSSR, v. 136, n. 2, 1989 (in Russian).

[16], [79].

(\*) V. Buldygin, S. Solntsev, *Functional Methods in Problems of Summability of Random Variables*, "Naukova Dumka", Kiev, 1989, 270 p. (in Russian).

[89].

K. Ciesielski, *How good is Lebesgue measure?*, Math. Intelligencer, v. 11, 1989.

[71].

P. Zakrzewski, *The existence of universal invariant measures on large sets*, Fund. Math., v. 133, n. 2, 1989.

[15].
